

South Ayrshire Council

Additional Support Needs Parents' Forum

Ayr Academy

On Wednesday 1st May 2019

6:00pm – 8:15pm

ASN Parents' Forum Information Hub Event

Information Hub

The Information Hub event will bring together a large range of national and local agencies that can provide support and assistance to children, parents and families. The event will offer you the opportunity to meet and engage with service providers, find out what they have to offer and identify how we can work together to improve outcomes for children and young people.

Catch Up Time

We will again have tea and coffee available throughout the event. This will offer the opportunity to catch up with each other to share information and knowledge about local resources and supports. Inclusion Coordinators and educational services staff will also be available to answer any questions that you may have.

Supporting Dyslexia

Call Scotland are national leaders in the field of overcoming disability and barriers to learning by using assistive technology. Allan Wilson from Call Scotland will explore how technology can support learners with dyslexia
